#### THE KNIGHTS OF LABOR GENERAL ASSEMBLY ISSUES AN AD-DRESS AND ADJOURNS.

With but little discussion the follow ing address was adopted: Brothers iu the cause of labor: We the Knights of Labor, in general as ings to all branches of honorable welcoming them to the most This organization embraces within its folds all branches of honorable toil and occupation, creed, color or ality. We seek to raise the level labor, to protect men and women in their occupations, in their lives and ibs and in their rights as citizens We seek also to secure such legislation as shall tend to prevent the unjust accumulation of wealth, to restrict the power of monopolies and corporations, and to enact such wise and beneficial legislation as shall promote equity and justice, looking forward to the day when co-operation shall supersede the wage system and the classes that now ide men shall be forever abolished. We recognize the service rendered to trade union organizations, but believe the time is fast approaching when all men who earn their bread by the sweat of the brow shall be enrolled under one general head as we are controlled by one common law—the law of our necessities—and we will gladly welcome to our ranks or to the protection of our banner any organization requesting admission to such organiza-tions as believe their craftsmen are beter protected under their present form of government. We pledge ourselves as nembers of the grand army of labor to co-operate with them in our mutual effort to achieve the success which we are unitedly organized to obtain, and to this end we have appointed a special committee to confer with any like committee from any national or interna-tional trades union which shall desire to confer with us on the settlement of any difficulty that may occur between members of the several organiza We have received a communi cation from a committee of the national officers of some of the national and international trades unions, requesting certain specific legislation at our hands, but, as we believe the object sought and stated in the preamble to the communication above referred to can best be accomplished by a conference between a committee of this association and a committee of any other organization, and as the propositions contained therein are inconsistent with our duty

tion on said propositions until a con-ference of committees can be held. The basis upon which we believe an agreement can be reached would necessarily include the adoption of some which all labor organizations could be protected from unfair men, men expelled, suspended under fine or guilty of taking the places of union men or Knights of Labor while on a strike, or while locked out from work, and that as far as possible a uniform standard of hours of labor and wages should be adopted so that men of any trade enrolled in one order and mem bers of trades unions may not come in conflict because of the difference in wages or the hours of labor. We also believe that a system of exchanging working cards should be adopted so hat members of any craft belonging t harmony together, the card of any member of this order admitting him to work in any shop and the card of any union man admitting him to work in any Knight of Labor shop. We further believe that upon a demand for increase of wages or shorter hours of labor made by either organization a confer-ence should be held with the organized laborers employed in the establishment where the demand for increase of wages or reduction of hours is contemplated, action upon a proposed reduc-tion of wages or other difficulty to be agreed upon in a like manner, and that ith the settlement of any difficulties between employer and employe the organizations represented in the estab ent shall be the parties to the terms of settlement. Trusting that the method proposed herein will meet with your approval and that organized labor will move forward and onward in harmony, in effect and in interest.

> Whereas, The measure then adopted aided in the restoration of the democratic party to power; therefore
> Resolved, That the opposition to
> tariff reform by persons elected to represent the democratic party in congress
> merits the disapproval and condemnation of every democrat; and that this club approves of the reform measure proposed by Hon. William R. Morrison in the bill now before congress, and calls upon every democratic member of congress from Pennsylvania to work and vote for the same.

tariff law is destructive of our business and labor interests, threatening in a short time to destroy our woolen industry entirely, we, therefore, demand of our democratic representative in congress from Philadelphia his reason for obstructing the passage of the bill Resolved, That we cannot too strongly condemn and denounce those demo cratic members of congress who are opposing the said bill, and especially those who in the face of the urgent necessity of tariff reform are endeavor ing to defeat the same, without as much as offering a substitute, and we, therefore, brand them as traitors to the democratic constituents and party. On the same day occurred a full meeting of the executive committee of the Revenue Reform Press Association

Formulas for extended organization, the raising of funds and the distribution of documents were agreed upon A series of resolutions were unanimously adopted, among which the fol-

lowing: Resolved, That in the bill reported by the ways and means committee of the house of representatives, and known as the Morrison bill, now pending, this committee, representing thir-ty-nine democratic and independent newspapers published in the state of Pennsylvania, recognizes a measure in harmony with its purposes, and the passage of which is demanded by a decent deference to the

best interests of the party and of the country. That we urgently call upo the members from Pennsylvania to give it their support, fully believing that their duty to their party and their country requires such support. That a vote for a motion to strike out th enacting clause of the bill, or any other motion looking to its summary rejec-tion without debate, would be not only unwise and undemocratic, but an aggravated assault upon the doctrine of free speech and free discussion—a doc trine that lies at the very foundation o all our liberties.

Resolved, That a measure that re ceives the support of more that four fifths of the democratic members of congress ought to be accepted as a fa interpretation of the national demo cratic platform on the subject to which it relates, and that as the Morrison bil in its reduction of duties falls far shor of the recommendations of the pres nt and secretary of the treasury as of those of the last two republican ad ministrations, and even of the sugges tions of the late tariff commissi hesitate to support it; and the member of this committee do not feel that they should be expected to advocate the nomination or election of any aspirant for congressional honors whose faith in reform does not reach to the extent

of obligating him to support it.

Another resolution appeals to the workingmen to study and discuss the question of tariff reform, as meaning more work for the workers, more wages, and more goods for the work

#### THE CLEVELAND CONVENTION.

[From the St. Louis Post-Dispatch.] The outcome of the Cleveland convention of Knights of Labor was a dis-appointment to the order and to its outside well-wishers, the great majority of the public at large. The one idea of raising the scale of wages by the special application of "protective" taxes and by manipulation of the wagemarket, through organization of wage-workers, with the aid of currency tinkering and strikes and boycotts in business and politics, is too narrow basis for a grand union of the labor interests of the country. What does it profit a man to raise his wages by special and empirical expedients by which his expenses and burdens are increased, pari passu, and general business obstructed? The line of expedients foreshadowed in the platform and action of the convention includes too much that is out of harmony with the plain policy of the great producing interests of the country-too much that is one-sided and very short-sighted. Perhaps a broader scheme of policy

was hardly to be expected from an order organized to promote a special class interest, but the failure was largely due to the un-American secrecy which shrouds the deliberations of the organization. It should put that away as savoring of conspiracy, of plots and snares, and do all its work with the openness that courts the light and en-lists the confidence of public opinion.

#### DEBT AND REVENUE MATTERS.

The reduction of the public debt dur ng the month of May amounted to \$8,825,565. The net cash in the treasnry to-day is \$76,142,611. The store of standard silver dollars in the treasury amounts to \$178,225,045, an increase of about \$2,125,000 during the past month. Customs receipts for May were \$13,551,885, against \$14,312,773 in May, 1885, and internal revenue receipts were \$12,618,627,or about \$125, 000 more than in May, 1885. Altogether receipts from all sources in May show a decrease of about \$1,000,000 compared with receipts in May, last year. Government expenditures were \$17,356,326, fully \$6,000,000 less than
